NOVAtime Time and Attendance / Workforce Management SaaS Solution with Third-Party Integration Wins Over Priority Workforce

Priority Workforce upgrades from NOVAtime 2000 to NOVAtime 4000 SaaS with custom integration to the firm's existing staffing and payroll software

DIAMOND BAR, CALIF. (PRWEB) October 29, 2014 -- NOVAtime Technology, Inc. (http://www.novatime.com), provider of leading-edge workforce management solutions to over 16,000 organizations of all sizes, announced today that long-time NOVAtime customer Priority Workforce recently made the move from NOVAtime 2000 to NOVAtime 4000 Workforce Management SaaS Solutionto meet the staffing firm's time and attendance needs for 10 of its client locations and to integrate with StaffSuite, the company's current staffing and payroll software.

With offices throughout California, Priority Workforce is a full-service staffing company that provides staffing, payroll and tax compliance, HR consulting, onsite management solutions, and technology solutions to its clients. For over 10 years, Priority Workforce has relied on NOVAtime to meet the time and attendance needs of its nearly 2,000 employees who use the system across 10 of its client locations. A recent upgrade this year from NOVAtime 2000 to NOVAtime 4000 opened the staffing agency's eyes to the benefits of the newer cloud-based software.

As a true Software as a Service (SaaS), NOVAtime 4000 Time and Attendance / Workforce Management solution is hosted through the NOVAtime data centers, meaning the server environment and all maintenance is provided by NOVAtime, significantly reducing the time Priority Workforce's IT team spends on maintenance of the system. Completely web-based, the system can be accessed anywhere, anytime. "One of the best features of NOVAtime Time and Attendance / Workforce Management solution is that it allows us to share access with our clients across different locations," states Alen Zilic, Senior Network Administrator of the staffing company. Another advantage of the web-based system is that it allows employees to punch in/out online using secure Employee Web Services or to punch in/out using the company's NT450 biometric time clocks.

The implementation of the staffing company's new time and attendance solution was performed by Pacific Time Systems (http://www.pactime.com/), a premier authorized NOVAtime reseller with over 20 years of experience in the industry. This expertise is evident to Mr. Zilic, as is the reseller's commitment to customer service, "We have worked with Pacific Time Systems for many years, and they have always provided great service and have been easy to deal with. Most importantly, we work with Pacific Time Systems because we feel they share our values as a service-based company."

Pacific Time Systems assisted Priority Workforce with the development of a NOVAtime payroll bridge to allow the NOVAtime system to integrate with the staffing firm's existing payroll system, StaffSuite. NOVAtime has developed hundreds of payroll bridges that allow data to be exported into multiple formats, including CSV, HTML, XLS, SDF, Tab Delimited, and DBF, ready for use by their payroll system.

Through Pacific Time Systems, NOVAtime is proud to be able to offer the benefits of our Software as a Service solution to Priority Workforce and companies like it across the country and around the globe.
