NOVAtime Maintains Application Security Certification for the NOVAtime Workforce Management Solution since 2008

Plynt / Paladion has certified the NOVAtime Time and Attendance / Workforce Management solution after extensive application penetration tests.

([PRWEB](#)) May 19, 2015 -- DIAMOND BAR, CALIF. (PRWEB) May 20, 2015 -- NOVAtime Technology, Inc. (http://www.novatime.com), a leading provider of enterprise Time and Attendance / Workforce Management solutions, announced that NOVAtime Time and Attendance / Workforce Management solution has, once again, passed the thorough penetration tests performed by Plynt / Pladion, a security testing and verification expert. NOVAtime earned the first application security penetration certification in 2008.

The Plynt Certification's security protection criteria include the following:
1. Safety against popular attacks;
2. Defense against threat profile;
3. Protection of sensitive data in transmission;
4. Safeguarded passwords;
5. Protection against password guessing;
6. Secure "forgot password" implementation; and
7. Insecure configuration settings on servers accessible directly by users..

The certification's security requirements criteria state that:
1. Safe sensitive data is not stored on client machines;
2. Sensitive data is not hidden in pages;
3. No sensitive data is revealed in error messages;
4. Re-authentication is required for sensitive activities;
5. No sensitive data is included in requests to external sites;
6. Web server is protected against known vulnerabilities;
7. No sample or test application is available to remote users; and
8. No sensitive data is disclosed in any source code accessible to remote users.

Mr. Gil Sidhom, Vice President of Research and Development at NOVAtime, states, "NOVAtime is serious about application security and we're proud to provide secured best-of-breed workforce management solution for our clients. The Plynt Certificate is evidence that our solution has passed globally recognized security checks, which have been applied by Plynt during the test."
