

NOVAtime Solution Increases Productivity for Halka Insurance

Halka Insurance Services improves efficiency by implementing NOVAtime 4000 automated time and attendance technology.

Diamond Bar, Calif. March 13, 2015 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), provider of leading-edge workforce management solutions to over 16,000 organizations of all sizes, announced today that Halka Insurance Services has selected NOVAtime 4000 to automate its time and attendance processes.

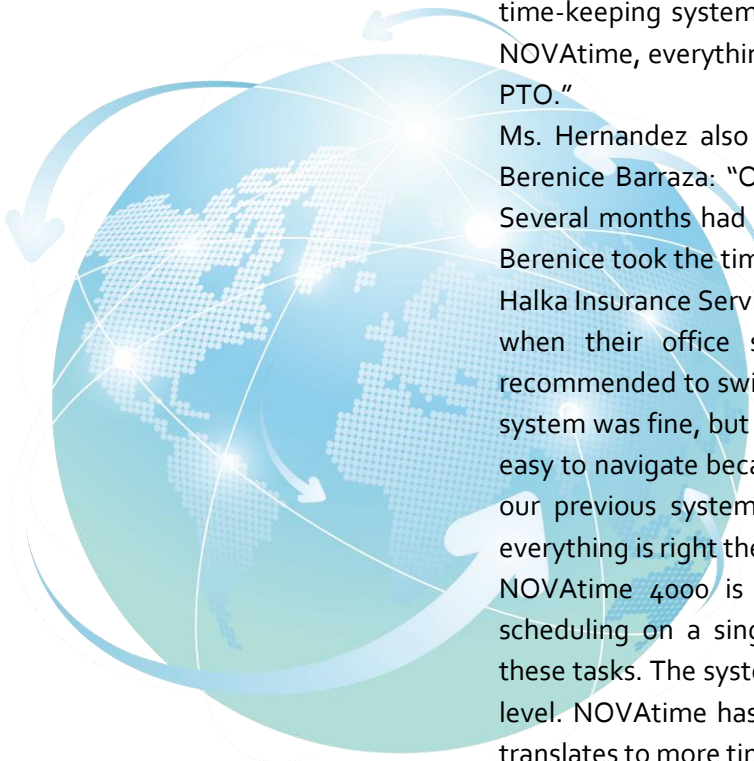

Serving the greater Los Angeles area, Halka Insurance Services is committed to protecting the assets of local families by helping them make sound financial decisions. Anton Halka serves as an agent of Allstate, and believes, "Insurance is unlike any other product out there—you pay for it and hope you never have to use it." Mr. Halka understands the value of a product as it relates to its usefulness, and this is where NOVAtime has stepped in to assist his insurance office.

"NOVAtime is very user-friendly, and the system is easy navigate," says Elva Hernandez, the Supervisor for Halka Insurance Services. "With our previous time-keeping system, I had to dig around for the information I needed. With NOVAtime, everything is there. I can easily make corrections and keep track of PTO."

Ms. Hernandez also had high praise for NOVAtime's Activation Consultant, Berenice Barraza: "Oh my goodness, she was really good. She was the best. Several months had passed since our last training, so we forgot some things. Berenice took the time to make sure we understood everything. She was great." Halka Insurance Services was previously using another timekeeping service, but when their office switched payroll services to Wells Fargo, they were recommended to switch to NOVAtime for time and attendance. "Our previous system was fine, but I think it is very important that anything we use at work is easy to navigate because we don't have the time to be looking for things. With our previous system, I had to go digging for things, but with NOVAtime, everything is right there."

NOVAtime 4000 is fully scalable to support time, attendance leave, and scheduling on a single database, requiring minimal navigation to complete these tasks. The system is intuitive, user-friendly, and easy to learn by any user level. NOVAtime has saved time in the busy office of Halka Insurance, which translates to more time spent helping the local families in Los Angeles.

"With our previous time-keeping system, I had to dig around for the information I needed. With NOVAtime, everything is there."
