

Roaring Mouse Cycles Races Ahead with NOVAtime's Solutions

Roaring Mouse Cycles (www.roaringmousecycles.com), a San Francisco bike shop, highest rated on both mtbr.com and yelp.com, is a friendly, local bike store serving the Sunset community of San Francisco with its excellent staff of mechanics and salespeople.

I am really happy with NOVAtime's PC Key-in Timekeeping System. It serves my timekeeping needs and helps me to race ahead of my competition.

Roaring Mouse Cycles provides expert service with no attitude. Their team, both on and off their bikes, has earned its reputation as a highly regarded local organization. This talented team has raced in over 300 road, mountain, cyclo-cross, and track races—with podiums and wins in many of them.

When *Roaring Mouse Cycles* decided to use an automated time card system to help to collect employee work hours for payroll, their Wells Fargo payroll representative referred them to Wells Fargo's preferred workforce management partner, NOVAtime Technology, Inc., to help them find the best fit in a timekeeping solution that would work well with their Wells Fargo payroll.

Their ultimate goal was to automate the process of collecting time punches, eliminate manual time card calculations, provide electronic employee time cards for audit trail and reduce time spent for payroll preparation.

Christopher Lane stated, "I first got the recommendation from my Wells Fargo sales rep, and I am really happy with NOVAtime's PC Key-in Timekeeping System. It serves my timekeeping needs and helps me to race ahead of my competition."

Mr. Lane added, "What I really like is, just like every bike purchased from *Roaring Mouse Cycles*, NOVAtime's product comes with one year of maintenance support—a worry-free ownership!" When asked if *Roaring Mouse Cycles* is satisfied with the NOVAtime system, Mr. Lane answered, "Yes, it works well and it's a very easy-to-use timekeeping system."
