[NOVAmobile App for the Remote Workforce](#)

NOVAtime's Native Mobile Applications are available for Apple iOS and Android

NOVAtime's native mobile applications are available for Apple iOS and Android platforms, a great solution for mobile and remote employees. The iPhone, iPad, Android smartphone, and Android tablet devices offer friendly user interfaces and intuitive apps.

NOVAtime Advanced Schedule Manager

NOVAtime developed the Advanced Schedule Manager (ASM) after working closely with many customers to discover the challenges of efficient real-time scheduling and integration with Time and Attendance. The resulting ASM is a powerful tool that supports dynamic and powerful methods of workforce schedule management.

NOVAtime 5000 Workforce Management

NOVAtime 5000 Workforce Management is a state-of-the-art, web-based, workforce management application system that has raised the bar in technology and functionality. All of the components you would hope to find are available plus the industry's most elegant user interface.

NOVAtime Payroll Bridge

The NOVAtime interface platform allows users to export data for normal work hours, premium hours, shift differential hours, comp-time hours, and more. The payroll bridge uses the built-in power of the NOVAtime engine to export data to multiple formats and send this information to virtually any payroll system.

Oracle Exastack Ready

Oracle Exastack Ready applications are supported by ISVs to run with Oracle Technology component products.
