

Calvin Lo Joined NOVAtime as Their New Director of IT

NOVAtime hired Calvin Lo to streamline their IT infrastructure for their hosted solution, NOVAtime 4000.

Monterey Park, CA (PRWeb) March 20, 2007 -- NOVAtime, (www.novatime.com), an innovative technology company that develops time and attendance and workforce management software, announced the hiring of Mr. Calvin Lo, and his first task was to prepare the IT infrastructure for NOVAtime's much anticipated software as a service (SaaS), NOVAtime 4000 Hosted Solution.

Mr. Lo has over 15 years of experience in providing IT services and managing IT Operations. He has been managing IT Departments while being hands-on with technology.

Mr. Lo has built the IT infrastructure from the ground up for a couple of hi-tech startups in the Silicon Valley. While at Portera, a company that provides a suite of online Professional Services Automation application, he had worked side by side with the former eBay's CIO, Bob Quinn, who oversaw transition and architecture in managing eBay's hyper growth. Mr. Lo also worked in IT Operations for Netflix, which has the world's largest online DVD subscription service. Prior to that, Mr. Lo worked for Novell for many years. He has also provided consulting services to various sectors including local government, VC firms, and pharmaceutical companies.

Prior to joining NOVAtime, Mr. Lo worked in Micronas, an International semiconductor company based in Europe. He managed their IT Department of the US R&D center based at Santa Clara, and supported offices on the other side of the Pacific Ocean.

Mr. Lo has certifications from Microsoft and Novell and is a member of several National Honor Societies.

Mr. Lo holds a B.S. in Electrical Engineering from the George Washington University and M.S. in Electrical Engineering and Applied Mathematics from the University of Southern California. He was also an Associate Faculty of the Department of Mathematics at Mission College, Santa Clara. He taught evening courses like Finite Mathematics both on-campus and at industrial partner sites of Intel and National Semiconductor.

"He brings a depth and breadth of experience in the IT sector. Immediately he had helped us in selecting a hosting center that is SAS 70 Type II certified, configured top notch servers and equipment for our hosted solution. NOVAtime expects excellence and Mr. Lo has deliver excellence in the preparation for NOVAtime 4000 Hosted Solution. We're thrilled that Calvin has joined us as our new Director of Information Technology," said Frank Su, President of NOVAtime.
