

NOVAtime Technology, Inc. Attains the Microsoft Gold Certified Partner Status

NOVAtime attains the Gold Certified Partner Status in the Microsoft Partner Program.

Monterey Park, CA ([PRWEB](#)) January 20, 2009 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a forward-thinking workforce management solution development company that continues to apply the latest technology advancements to its suite of Time and Attendance/Workforce Management products and services, today announced it has attained the Gold Certified Partner status in the Microsoft Partner Program with competencies in ISV/Software Solutions. As a Gold Certified partner, NOVAtime has demonstrated expertise with Microsoft-based technologies. Microsoft Gold Certified Partners are eligible for the highest level of partner benefits in sales, marketing, and technical support to help businesses realize their fullest potential.

"Our NOVAtime workforce management solutions are developed using the highest development and quality standards. In addition to the recent Application Security Certification from Plynt, we are pleased to have attained Gold Certified Partner status in the Microsoft Partner Program. Microsoft recognizes NOVAtime as a new Gold Certified Partner for demonstrating its expertise in providing solutions utilizing Microsoft products and technology," said Frank Su, NOVAtime President.

NOVAtime's Time and Attendance/Workforce Management solutions are built using Microsoft .Net Framework. Vice President of R&D Gil Sidhom said, "NOVAtime Time and Attendance/Workforce Management systems support a multi-tiered architecture so that our software can run in a load-balanced configuration within any tier of the application and offer a truly scalable solution."

Mr. Sidhom added, "It works with all the latest Microsoft's SQL products, such as Microsoft SQL 2000, Microsoft SQL 2005, and Microsoft SQL 2008." Director of Professional Services Brian Harris stated, "Utilizing Microsoft's products and technology, we are proud to provide an industry-leading line of hardware solutions that sends data in real time to the application. Our NT6500 time clocks are built on top of the Microsoft Windows CE platform, and our mobile NT6000 PDA terminals are built on the Microsoft Mobile platform. Like our software, both time clock programs are built using the Microsoft .Net Framework, and providing the reliability and flexibility needed in almost any business environment."

The Microsoft Partner Program was launched in October 2003 and represents Microsoft's ongoing commitment to the success of its partners worldwide. The program offers a single, integrated partnering framework that recognizes partner expertise, rewards the total impact that partners have in the technology marketplace, and delivers more value to help partners' businesses be successful.

ISV/Software Solutions Competency recognizes the skill and focus technology partners bring to a particular solution set. Microsoft Gold Certified Partners obtaining this competency have a successful record of developing and marketing software solutions using Microsoft-based technologies.

NOVAtime has two supported software platforms: [a licensed client-server application with web capabilities](#) and [a hosted software as a service application with multi-tenant infrastructure](#). For more information on NOVAtime's
