

Scott County of Iowa saves payroll costs & automates project tracking using NOVAtime's Time and Attendance/Workforce Management Solutions since 2001.

Scott County automates project tracking, empowers its supervisors to manage their labor hours, and saves payroll processing costs using NOVAtime's Time and Attendance/Workforce Management Solutions!

Diamond Bar, CA ([PRWEB](#)) August 23, 2011 -- NOVAtime Technology, Inc., a forward-thinking [workforce management](#) solution development company, today announced that its long term client, Scott County, automates complex project tracking and saves payroll processing costs using Scott County automates project tracking and saves payroll processing costs using NOVAtime's Time and Attendance/Workforce Management Solutions.

A strong believer in the idea that a penny saved is a penny earned, Scott County of Iowa has been using NOVAtime's automated, computerized time and attendance/workforce management solution since 2001 to better manage their workforce and reduce overtime expenditures. Scott County started on the NOVAtime 2000 Time and Attendance system, a client/server solution, and then migrated to the web-enabled NOVAtime 3000 Enterprise Edition in 2008. By eliminating manual payroll preparation processes and providing county supervisors and managers with tools to proactively manage labor costs, Scott County began saving time during payroll preparation.

Prior to using the automated timekeeping solution from NOVAtime, supervisors were not able to proactively monitor their employees' work hours until the pay period ended. Using NOVAtime's workforce management solution, supervisors could monitor daily times of employees clocking in and out, the number of hours worked throughout the week, and how close workers were to approaching the 40-hour week. If an employee is getting close to having overtime while another employee isn't, a supervisor can reassign employees to curtail overtime expenditure without impacting productivity.

Mr. Wes Rostenbach, Accounting and Tax Manager of Scott County, says, "The NOVAtime system is a very comprehensive workforce management solution and it undoubtedly satisfies our complex timekeeping needs. Longley Systems played a key role in the successful implementation throughout Scott County." Mr. Rostenbach adds, "Longley Systems provides exceptional support and assistance: it's very reassuring to have someone that understands the NOVAtime system at such a high level and to have it customized to our particular, complex city government needs here at Scott County."

Mr. Rostenbach comments, "Project tracking is now easily accomplished, and it only takes a few clicks to get work hours into the payroll system, saving payroll processing time and costs."
