# NOVAtime Technology, Inc. Has Revamped the NOVAtime 4000 Software User Interface (UI)

*NOVAtime unveils the new look and feel of its NOVAtime 4000 hosted solution.*

DIAMOND BAR, CALIF. ([PRWEB](#)) June 12, 2012 -- NOVAtime Technology, Inc. ( [http://www.novatime.com](http://www.novatime.com)), a leading provider of Workforce Management solutions for enterprise organizations, is pleased to announce a new and completely revamped user interface (UI) for its [NOVAtime 4000 hosted solution](#). The goal of this change is to not only refresh the application appearance, but to build a redesigned interface that is more modern and based on new technologies that allow inter-platform standardization. The feedback from customers and business partners has been overwhelmingly positive for the new UI, which changes the look and feel of NOVAtime's Time and Attendance/Workforce Management solutions, including Employee Web Services (EWS), Supervisor Web Services (SWS) and Administrator Web Services (AWS).

"With the new UI, we've improved the usability while continuing to stay on top of the latest trends and technology. The infrastructure is now HTML5 compatible and uses CSS3 technology to provide cross–browser support. This technology has been adopted by Firefox, Safari, Google Chrome and IE. Best of all, NOVAtime 4000 now runs well in tablet devices and is positioned to meet the challenges of today's mobile computing requirements," says Frank Su, President and CEO of NOVAtime.

James Ramirez of Pacific Time Systems, an authorized reseller of NOVAtime solutions, comments, "The new NOVAtime 4000 is more efficient, loads faster, and is easier to use. I've received very nice feedback from our clients."

Bryce Wilkins, Chief Operations Officer of BKM Global Enterprises, adds, "The new NOVAtime interface is awesome!"

"Many customers enjoy NOVAtime 4000's new modern look and feel, with cleaner interfaces and dropdown menus, yet they are most impressed with the ease of navigation and drastic improvement to overall page load times," says Brian Harris, Vice President of Client Services.

With a focus on building the leading time and attendance/workforce management solution, NOVAtime offers a dynamic web-based system with several delivery options. [The NOVAtime 4000 SaaS hosted solution is delivered via Software-as-a-Service](#)and features a multi-tiered, multi-tenant infrastructure. Alternatively, the NOVAtime 4000 STAR licensed solution can be delivered on-premise, installed on the customer's servers. While NOVAtime 4000 STAR is available for companies with over 1000 employees, NOVAtime also offers the NOVAtime 4000 STARbox for companies with up to 1000 employees. The new UI will be available in August for [NOVAtime 4000 STAR](#)and [NOVAtime 4000 STARbox](#)clients.
