Diamond Bar, CA ([PRWEB](http://www.prweb.com)) June 14, 2013 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Time & Attendance solutions, announced that it will showcase its complete line of Workforce Management solutions at the Society for Human Resources Management (SHRM) 2013 Annual Conference and Exposition. The event will be hosted in Chicago, Illinois, from June 16th through June 19th.

SHRM has been hosting the annual conference for more than six decades, providing HR/Payroll professionals with a great opportunity to refresh and renew their understanding of workforce management options each year. The conference offers various events to attend, including presentations given by world-class speakers. The program enables attendees to learn, share, and connect with others before returning home, well-prepared for what is next in HR management.

The SHRM exposition will host over 700 exhibiting companies and an audience of over 13,000 HR professionals from across the globe. NOVAtime will be at booth #1659, showcasing the latest developments of the robust [NOVAtime 4000 solution](#) and other product advancements. “We will show Human Resource executives and Payroll professionals how they can protect their companies’ bottom lines, while proactively managing their workforces through the use of [real-time data that can be brought in by a variety of our push technology devices and time clocks](#),” says Scott Rose, a NOVAtime Enterprise Account Manager.

While continued support of SHRM and other national industry associations has allowed NOVAtime to become a recognized leader in the Time & Attendance / Workforce Management industry, NOVAtime’s involvement and participation also ensures that its solutions continue to address current industry challenges and compliance requirements. Mr. Rose adds, “This year NOVAtime will be highlighting the new PPACA module, a Compliance Assurance Tool that will help companies maintain compliance with the Patient Protection and Affordable Care Act (PPACA). In addition to providing flexible reporting capability for PPACA compliance, the module will reduce labor costs by precisely determining which employees qualify for health care coverage under the ObamaCare eligibility parameters.”

With health coverage presenting itself as a major cost for any company, the new PPACA module has quickly become a key solution feature for many customers. Recognized as one of the only Workforce Management solution providers to offer the compliance tool, NOVAtime continues to demonstrate its progressive approach to product development. SHRM attendees will have the opportunity to learn more about NOVAtime’s latest advancements and how it has benefitted over 13,000 organizations since its establishment in 1999.
