

NOVAtime Announces the NOVAtime 4000 Workforce Management SuiteApp for NetSuite's Cloud Computing Platform

New SuiteApp offers NetSuite customers NOVAtime's Time and Attendance / Workforce Management Solution.

San Jose, CA and Diamond Bar, CA ([PRWEB](#)) May 17, 2013 -- NOVAtime, a leading Time and Attendance/Workforce Management solution, today announced the launch of the NOVAtime 4000 Workforce Management SuiteApp, built using NetSuite's SuiteCloud Computing Platform. The new SuiteApp enables customers to manage time and attendance, scheduling, accrual, expense, and other human capital management features—all as a single offering for NetSuite customers.

NetSuite's SuiteCloud is a comprehensive offering of cloud-based products, development tools, and services designed to help customers and commercial software developers take advantage of the significant economic benefits of cloud computing. SuiteCloud Developer Tools provide a comprehensive cloud customization environment, whether you're extending NetSuite to fit your business needs or developing completely new applications. SuiteCloud Developer Tools include workflow management, scripting, analytics, web services and more.

“We're excited to be a NetSuite SuiteCloud Developer Network partner with the Built for NetSuite badge, and to offer NetSuite customers a reliable and recognized leading time and attendance/workforce solution,” said Frank Su, CEO of NOVAtime. “The SuiteApp provides seamless integration and boosts both systems' capabilities. While working in NetSuite, end-users can add and change classification data (known as departments, locations, and classes in NetSuite), and have that data automatically reflected in the [NOVAtime 4000 SaaS solution](#).”

Working with NetSuite

“Using the SuiteCloud Development Platform, NOVAtime has developed the NOVAtime 4000 Workforce Management SuiteApp targeting joint customers in the retail, manufacturing, and warehouse distribution industries,” said Guido Haarmans, Vice President of Business Development for Technology Partners at NetSuite. “These new capabilities help our customers manage and streamline their workforce across multiple locations and manage it all within one system, NetSuite.”

Key Benefits

- * Available via Software as a Service (SaaS) or through an on-premise, licensed model
- * Features user-friendly web interfaces for administrators, supervisors, and employees
- * Accommodates an unlimited number of employees
- * Built with an open modular design that easily adapts to company changes
- * Reduces administrative costs and increase employee productivity
- * Automatically exports summarized work hours by labor codes such as departments, locations, and classes into NetSuite's “Time Bill” records
