

NOVAtime to Showcase its Powerful Mobilized Web Pages at the Upcoming Society for Human Resource Management (SHRM) Annual Conference and Exposition

NOVAtime announces its plan to participate in the SHRM 2015 Annual Conference and Exposition to showcase its complete line of Time & Attendance / Workforce Management solutions, including the new mobilized web pages for NOVAtime 5000, at booth #2538.

Diamond Bar, Calif. ([PRWEB](#)) June 25, 2015 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Time and Attendance / Workforce Management solutions, has announced it will unveil its new mobilized web pages for NOVAtime 5000 at the Society for Human Resource Management (SHRM) 2015 Annual Conference and Exposition. The event will be hosted in Las Vegas, from June 28 through July 1.

With over 600 exhibiting companies and an audience of over 11,000 HR professionals from across the globe, the SHRM conference will be an important forum for sharing the latest developments in workforce management solutions. With this in mind, NOVAtime, which will be exhibiting at booth #2538, will present the most recent additions to its robust line of solutions and other product advancements. “We will show human resource executives and payroll professionals how they can protect their companies’ bottom lines, while proactively managing their workforces through the use of real-time data provided by our push technology devices and time clocks,” says Scott Rose, Enterprise Account Manager.

NOVAtime’s continued support of SHRM and other national industry associations has allowed the company to become a recognized leader in the Time & Attendance / Workforce Management industry. The company’s involvement and participation in SHRM also ensures that its solutions continue to address current industry challenges and compliance requirements. According to Mr. Rose, “This year we will be highlighting NOVAtime 5000’s new mobilized web pages, which allow our mobile-friendly web solution to automatically adjust its display for mobile devices.” Explaining the advantages of these mobilized web pages, Mr. Rose adds, “Using mobile-friendly web pages means you don’t have to download an app to get all the powerful functionality of our signature solution on your mobile device. These pages will allow your employees to clock in and out and perform job transfers, while supervisors can review and approve their employees’ time cards and PTO requests online—all using their mobile devices.”

NOVAtime’s development of mobilized web pages is just one more example of the company’s commitment to continual research and development. Gil Sidhom, Vice President of R&D, explains, “Since our founding in 1999, we have sought to stay at the leading-edge of technology. In the early years, that meant being one of the first in the industry to use push technology for our time clocks. Now it means focusing our research and development on mobile solutions. The development of mobilized web pages for our 5000 solution is a key part of that effort.”
