

## **NOVAtime Offers a Plethora of Gifts and Technology at SHRM 2018**

*NOVAtime announces its plans to participate in SHRM 2018 by offering mouse pads, phone holders, and live demonstrations of its latest technologies: Find My Employee and NOVApower Analytics.*

RANCHO CUCAMONGA, Calif. ([PRWEB](http://www.prweb.com)) May 23, 2018 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Workforce Management / Time and Attendance solutions, announced its participation in SHRM 2018.

The Society for Human Resource Management (SHRM) organizes and facilitates the SHRM 2018 Annual Conference & Exposition, an event for Human Resources professionals, with the goal of providing tools and resources for successful HR practices. It is the largest event of its kind, providing over 200 concurrent sessions to HR professionals at every stage of their career. Attendees can select from a broad range of topics that suit their learning needs. SHRM 2018 will take place at the McCormick Place Convention Center (MPCC) in Chicago from June 17-20, 2018.

NOVAtime will be located at Booth #1639 at SHRM 2018 where they will be showcasing their latest innovations in workforce management. The first 300 people who visit the booth will receive a NOVAtime mousepad or phone holder. Attendees with a completed survey and view a live demonstration will receive a complimentary beach towel backpack or baseball cap. Live demonstrations will feature Find My Employee, a tool that utilizes beacon technology to track employees, and NOVApower Analytics, NOVAtime's newest business intelligence tool.

[Find My Employee](#) utilizes beacon technology, or small "beacons" that emit a continuous Bluetooth Low Energy (BLE) signal that has the ability to trigger functions in other active Bluetooth devices. Find My Employee is an application that utilizes these two technologies to locate an organization's workforce within a specified vicinity. For organizations that require real-time information for the location of their workforce, Find My Employee combines Beacon technology for accurate indoor tracking in conjunction with GPS technology for outdoor tracking.

[NOVApower Analytics](#) is a dynamic and efficient way to visualize workforce management data. For companies who wish to utilize large amounts of business data, NOVApower Analytics extracts days, weeks, months, and years of data into useful and interactive graphs that can provide insight into a company's largest expenditure—employee work hours. This analyzed data can be distilled and emailed to key team members within an organization to track and forecast labor initiatives.

"We are delighted to showcase the one-two punch of Find My Employee and NOVApower Analytics at SHRM 2018," indicated Brian Harris, Vice President of Client Services at NOVAtime. "Find My Employee allows businesses to track their mobile workforce in real time while NOVApower Analytics turns that data into useful information to efficiently and positively influence the bottom line."

### About NOVAtime

NOVAtime is headquartered in Rancho Cucamonga, California, and has become the leader in integrating Time and Attendance Management with Human Resource and Payroll systems. Known for its scalable and leading-

edge software and hardware technology, NOVAtime has been selected as the preferred Time and Attendance / Workforce Management solution provider by many of the best-managed companies in the world.
