

Pipeline Foods Impressed by NOVAtime's Features and Support for their Canadian Offices

NOVAtime has made Workforce Management / Time and Attendance easy for Pipeline Foods with exceptional reporting and support.

RANCHO CUCAMONGA, CALIF. (PRWEB) September 20, 2018 -- NOVAtime Technology, Inc. (<http://www.novatime.com>), a leader in Workforce Management / Time and Attendance solutions, continues to provide excellent service after the successful implementation of Pipeline Foods' Workforce Management / Time and Attendance system.

"NOVAtime is very user friendly and has an easy reporting system. If a question or issue does arise, the support staff is very knowledgeable."

[Pipeline Foods LLC](#) provides supply chain solutions to non-GMO and organic food and feed producers. Pipeline was founded in February 2017 by Erick Jackson, and launched its Minneapolis based global operations in September of 2017, with the goal of "accelerating the availability of healthy and regeneratively grown food and feed." They invest in organic and non-GMO grains, provide professional advice to farmers and food companies, and partner with like-minded companies and organizations. In addition to their global Headquarters, Pipeline has regional headquarters in Winnipeg, Manitoba, Canada and Buenos Aires, Argentina.

Prior to April of 2018, Pipeline was not tracking hours for employees in its three Canadian facilities. Employees were guaranteed 40 hours a week and timesheets were submitted to payroll directly from supervisors without employee input. They needed a user-friendly solution that provided tracking and reporting for hours and leave accruals in a central location and would integrate with Blue Marble global payroll.

"We can now accurately track employee hours and time off. We have a reporting system and can keep records," says Andrea Billadeau, Pipeline's Payroll and Human Capital Specialist. She added that the support they have received has been exceptional and questions were answered promptly by their personal support representative. She notes, "NOVAtime is very user-friendly and has an easy reporting system. If a question or issue does arise, the support staff is very knowledgeable."
